Earth Day is Almost Here!

Dust off those pick-up sticks and get out your gloves – spring is coming, and Earth Day is just around the corner!

Earth Day is Saturday, April 22nd. Scheduling a cleanup for *any* day in April is a great way to celebrate Earth Day and to enjoy the sunshine! Reserve your kit soon by calling the coordinator at 206-296-3807, and be sure to check page 2 of this newsletter for the coordinator's new hours for Spring Quarter.

Did you know?

The first Earth Day was celebrated on April 22nd, 1970. This holiday began after a growing conservation and environmental movement inspired by the efforts of Senator Gaylord Nelson and popularized by John F. Kennedy. It is thought that over 20 million volunteers participated in community activities on the first Earth Day, and that number has grown every year. This year marks the 35th anniversary of the holiday!
